Notice of Completion of Response to PHP Vulnerabilities

Thank you for your continued interest and participation in our exhibitions.

We are writing to confirm that we have completed our response to the recently disclosed PHP vulnerabilities.

The security updates addressing these vulnerabilities have been applied to the server used by our exhibition websites.

As of the date of this notice, we have found no signs of unauthorized access, website tampering, or data leakage related to these vulnerabilities.

PHP is not used in our exhibitor registration or visitor registration systems.

We will continue to monitor security information for the software we use and take appropriate action when necessary.

Security Notice

As a general security precaution, please be alert to phishing emails that impersonate our company or other legitimate organizations and ask you to change your password or verify your account.

We will not send emails asking you to click a link or enter your password in connection with this matter.

If you receive a suspicious email, please do not click any links. Delete the email.

For questions regarding this notice, please contact the relevant exhibition office.
